The NIH requires authors of all peer-reviewed publications resulting from CTSC-supported research to CITE that support and to SUBMIT these publications to PubMed Central immediately upon acceptance for publication. Compliance with these policies is mandated by the federal government. Because publications are a crucial productivity metric we also ask that you SHARE your CTSC-supported publications with the UC.

CITE THE GRANT

Investigators who receive funding or support from the CTSC — including CTSC services (e.g., biostatistics, biomedical informatics, clinical trials resources), CTSC resources (e.g., CTSC Clinical Research Center), and CTSC funding (e.g., pilot grant awards) — are required to acknowledge the CTSC in their publications.

Scholars enrolled in the MCRTP, CTSC T-32, or CTSC K-12 programs are required to cite the CTSC grant in publications on which they are an author and that result from projects initiated or conducted during their training period, regardless of the date of publication.

Use the following language to acknowledge CTSC support:

"The project described was supported by the National Center for Advancing Translational Sciences, National Institutes of Health, through grant number UL1 TR000002. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH."

- TL1 (T32) Scholars add: "and linked award TL1 TR000133."
- KL2 (K12) Scholars add: "and linked award KL2 TR000134."

SUBMIT TO PUBMED CENTRAL

The NIH Public Access Policy requires that manuscripts citing the CTSC grant(s) be submitted electronically to PubMed Central upon acceptance for publication. Failure to do so may delay the processing of all grant awards linked to the article.

- Review the NIH Public Access Policy website.
  (see http://publicaccess.nih.gov)
- Check your journal’s policy to see if they automatically deposit your article with PubMed Central.
  (use http://publicaccess.nih.gov/submit_process_journals.htm)
- If your journal does not deposit your article for you, YOU must upload the final accepted version of your manuscript to the NIH Manuscript Submission (NIHMS) System.
  (go to https://nihms.nih.gov)
- Promptly respond to all requests for approval or revision emailed to you by the NIHMS system.
- Use the PMC identification number (PMCID) assigned to your article at the end of the process when submitting applications or reports to the NIH.

SHARE YOUR SUCCESS

Notify the CTSC by email when your article is accepted for publication.
